Beloved Children:

Not only your physical bodies but your mental, emotional and etheric bodies are made up of thousands of atoms. Each atom consists of a central core of fire around which a series of electrons move in ordered precision -- as the planets move around the sun. The electrons spin in their orbit even as the Earth turns on her axis in the twenty-four hour period. The speed with which the electrons move in their procession around the Flame in the center of the atom, and the speed at which they turn in their orbits determine the rate of vibratory action of your vehicles. The Mind of God determined the time and the speed with which the planets circle around the sun, and the Earth has obeyed that Law, remaining in its orbit, and completing its revolution every twenty-four hours within that orbit, as well as its circle around the sun in what has been chronicled as your present one-year period.

In the lifestreams of the children of Earth, there was, likewise, set a perfect pattern for the electrons moving in each atom, and combined with all the atoms in the seven bodies, it made an ordered universe and a harmonious vibratory tone and color. The natural rate of vibration of the seven bodies of each lifestream was placed at such a rapid rate that imperfection, disease, limitation and inharmony of any kind could no more attach themselves to these rapidly moving bodies

than could a cloud of smoke enter into and become part of the Sun of our System.

When the vibratory action of the bodies of men began to vibrate more slowly than their natural rate, they had no longer the repelling force which their own rapidly moving energy provided - which took the form of a tube of light around them. When men lowered the calibre of their thought and feeling worlds, it lowered the vibratory action of the four lower bodies until they became so slow in their movements that every dectructive rate of vibration generated by their fellow men could easily flow into and become one with them because there was no rapid circulation of the electronic light to repel and deflect their intrusion. That is why the more distressed and discouraged an individual becomes, the more he is slowing down the vibratory action of his system and the more he is drawing into himself the accumulation which vibrates at this slower rate.

There is only one way for mankind to come back to a state of immunity - which was symbolized as the Garden of Eden. That is to consciously draw the light into the four lower bodies. That light will act as an electric charger as it flows into each electron, causing it to spin more rapidly in its orbit, gradually accelerating the vibratory rate of the lower bodies. This action, if sustained by conscious effort, will bring the lifestream to a state wherein discord and imperfection will no longer register.

The student body is like a foolish pilot who sits in the cockpit of a most modern airplane and weeps copiously because the large contraption will not rise into the air, but yet he will not turn

the lever which sets the propeller into motion. Unless he will draw the electric force into the great motor, he will sit there forever.

Beloved children ye have the way and the means to rise out of the discord of Earth. Why sit ye weeping in your limitations when, through the use of God's limitless light, you may rise up and be free. You have faith that by putting your foot on the starter of your car you will start the engine running. Why not have faith in the Three-fold Flame in your hearts to raise your consciousness above the discord of Earth.

Blessings and Love,

MAHA CHOHAN

My Blessed Children:

How dear to My heart are your expressions of love that come to Me in your individual epistles; and back to you, on the beam of your own sweet energies, go My Radiation and Blessing - not only for your final Victory, but for your present comfort and encouragement. Have you thought that while My Office is that of 'Comforter', you, in turn, are a 'comfort' to Me through the sweet intercourse we have one with another? Love is Life itself; and everything, from the smallest molecule to the Godhead, responds to Love. The more one pours out love to life in general, the more peace and harmony and blessings of every kind return - 'pressed down, shaken together and running over'. Weary not of well-doing and well-wishing. These activities pay dividends not only in the 'hereafter', but in your everyday living.

Life, as you know, is an activity of energy and vibration - a receiving and a giving. We are constantly receiving, through the heartbeat, unsullied life, and are just as constantly, through our individual thoughts and feelings, transmuting its quality into whatever expression the mood of the moment dictates, when all our efforts should be centered in raising the quality of our energy through consciously directed thought and feeling into the divine nature of this pure life that is flowing into our use so generously and so ceaselessly.
